

## **Truly agree Restricted Gambling on HK's Soccer Matches**

Recently, scandals about bribery & corruption criminals committed in FIFA did, really arouse my ponder at initiation of, (restricted) gambling of especially grand football/ soccer matches for both charity, & promotion of this athletics of the most popular globally, with HK as well.

Actually, since emergence of Internet in the 1990s, underground-gambling has become so rampant all over the world, as international audiences could easily know results, or watch recorded or even live broadcast of soccer matches in any part of the earth. For HK, since 8/2003 it thus has being pursued the admission of Restricted Gambling of it, under held by the Jockey Club of HK. However, so “ridiculous” I deem it is NOT allowed to gamble the soccer matches that squads relevant with home HK, would have to participate in those rivalries. In fact, to be fair to say Independent Commission Against Corruption (ICAC) domestically in HK, should always be at the highest vigilance to, endeavor on eradication of any bribery criminal to all stakeholders in local vocational soccer squads at races, whatever be restricted-gambling to admitted to come into practice or NOT in those sport events.

So clear, the expectation of anti-corruption could NOT become effective by this refusal on admission for restricted-gambling on local HK's vocational soccer matches, as underground-gambling still be so actively rampant to cause its corruption. However, so advantageously obvious is, if whether it will be further admitted for Restricted Gambling at domestic HK's Soccer Matches. Firstly, those races will be much more regarded with monitored by this introduced admission as legalizing respective gambling. Then, market on audience-rating at purchase of tickets for watching those football matches in stadium, locally will be much enhanced! Thereby, career prospect of the vocational soccer players must be just furthermore thriven. And, for the band-level of domestic soccer tournament competitions, will also be it raised up at certain extent as well!

Deeply hope at, the Hong Kong Jockey Club will additionally admit the Restricted Gambling of local HK's (vocational) Soccer Matches. Hence can a virtuous cycle be commenced, to really fortune & prosper extensive economic livelihoods of HK, under only adults can participate in, so to get rid of any “further” encouragement of gambling culture in this society.
