

Be Constitutional Reform shall reconsidered

2019 is originally, the annum which should be jubilantly celebrated for the 70th anniversary of, inauguration of the People's Republic of China since 1st-Oct-1949. However, how HK in contrast, appeared even cancellation of nighttime-firework, decided by Mrs. Carrie LAM Chief Executive of HK Govt., up to this time it ought to praise for the "birthday" of the motherland?

In fact, since 6/2019 the controversy around Extradition Amendment emerged, numerous severe chaos & riots were incurred & up to now, it has even not yet thoroughly stopped for respective protests. How, we HK's people really had inadequate "patriotic" heart with mood, onto genuinely applaud for the National Day of 70 years old of China?

On recall I deem, core to cause the chaos was truly, owing to the failure of Constitutional Reform of 2017 which was processed during in 2014-15. And, now on review to the August-31st Framework decided by the Standing Committee of the National People's Congress in 2014, its authority of legitimacy does seem to be, truly quite limited on execution!

Objectively, the August-31st Framework is only just a Decision specifically to the 2017 election of Chief Executive. In comparison with "written constitution" of Articles like 39, 45, 68, Annex I, Annex II in HKSAR Basic Law, relatively, the authority of August-31st Decision should be however, even inferior than the counterparts in Basic Law!

So, like Article 39 "Law of Human Rights" which prescribes guarantee to civil & political rights of HK's people, its authority may actually, even surpass the one of August-31st Framework, as essence of possibly breaching the Constitutional/ Basic Law of the latter oneself.

Hence, for more appropriately mitigate present conflict in society after Extradition Amendment since 6/2019, at more progressive HK Govt. shall be at earlier time on announcing, that to strive on creating more "conducive conditions" for reconsidering "Constitutional Reform" of 2022 & 24. Even if, it has to be more conservative the administration shall still express quite more approved stance, towards both the universal suffrages in 2027 & 28, on alleviating current dissent of HK's people.
